

Rothrock, Lesley, Frazer and Kane; with special reference to the occurrence of abnormal rings in timber, Mr. Price desired it to be remarked that Dr. Rothrock's important practical discovery was the direct result of the practical use to which the American Philosophical Society had put its portion of the Michaux Legacy, as the minutes of the last few years show.

Dr. Frazer communicated a paper entitled: "Some Comparative tables showing the distribution of Ferns in the United States," by Geo. E. Davenport, of Medford, Mass. (See page 605.)

Dr. Frazer presented the report of the Special Committee on a Memorial to Congress, which was approved, and the Officers were authorized to sign the Memorial and transmit it to Congress. The Committee was discharged from the consideration of that part of the subject which related to the Light House Board.

The President reported that he had received and paid over to the Treasurer \$132.75, being the quarterly interest on the Michaux Legacy last due.

On motion of Mr. Price, the expense of preparing the illustrations of Dr. Rothrock's paper was charged to the Michaux Legacy fund.

Stated Meeting, Feb. 16, 1883.

Present, 11 members.

President, Mr. FRALEY, in the Chair.

Messrs. Macfarlane, Claypole and Emmons by letter accepted their election to membership.
